

**13-16 year old (6 lessons)**

**Reusable bags**

**Objectives:**

- That students are aware of reusing material into useful things.
- That students create a tangible thing that benefits society (sustainability)

**Materials Needed:**

- Old clothes
- old bedding.
- Old flags
- material residues
- sewing machine, twine and needle
- 

**Structure of lessons**

**Lesson 1 (40 min )**

Discussion in class about ways to reduce plastic bag use and why we need to stop using plastic bags.

**Lessons 2-4 (120 min)**

The students of the level decide the format of the bags. You can have several formats, but the simplest for production is to have one.

Students decide if they want to have a label on the bags and design it.

**Lessons 5-6 (80 min)**

Work time where students go to the textile workshop in smaller groups and sew bags.

**Assessment:**

- Student self-assessment - product: reusable bag
